ARC

NEW
Release

www.unilamp.co.th/en/p/arc

ARC – the adjustable walkover inground-uplighter. **ARC** incorporates a unique aiming mechanism that is adjustable from the outside of the fixture using a standard screwdriver or hexagon key. This key benefit means the installer doesn't need to open the luminaire or remove it from the ground for adjustment. Final commissioning and aiming are carried out while the product is still sitting in the ground block-out. The housing is enhanced LM6 aluminium, and the front cover plate comes in stainless steel.

ARC offers outstanding beam quality with high contrast and precise control. The luminaire is fitted with a pre-wired supply cable for inground application and internally potted to prevent humidity and condensation.

Specification

- Designed, Manufactured and Tested according to IEC 60598.
- Stainless steel, LM6 die-cast aluminium housing.
- Stainless steel screws.
- Nano Ceramic surface conversion.
- Double layer coating.
- Safety glass cover.
- High performance PC lens.
- Adjustable optical unit.
